Short Features:	
Telekommunikasiedienste aan die Witwatersrand	32
Centenary of birth of Marconi	30
Matters of interest	77, 159, 210
A history of international electrical engineering organisation by A A Middlecote	99
IEC world-wide plug and socket-outlet	211
SABS progress on television project by J Vollmer	209
IEC Annual General Meeting	284
Terminal markings for electrical apparatus and other identifications for electrical equipment (IEC Bulletin) ..	281

Papers

<i>Communication techniques in deep space tracking.</i> J Goddard	2
<i>Direct digital control of dc machines.</i> A P von Zwiklitz and S C McLaren	22
<i>Escom's proposed real time computer based control and load despatch system.</i> F H C Conradie and J S Els	42

<i>DC current transformers with particular reference to HVDC transmission schemes.</i> M Hadingham	62
<i>Die dosent in ingenieurswese: The engineering lecturer (Presidential Address).</i> F G Heymann	83
<i>Pulse code modulation systems.</i> W A Brading	106
<i>Maintenance and testing of modern winding plant.</i> W A J Vanstone	148
<i>Surge propagation on multiconductor lines.</i> F G Heymann	138
<i>Electro-physiology of the electrical shark-repellant.</i> F D Smith	166

Student Papers

<i>A digital accelerometer for torque-speed studies.</i> C G Yamey and P B Robinson	207
<i>Logarithmic analogue to digital conversion for processing acoustic signals.</i> J A Raath and P J Knight	218
<i>Die invloed van geleiergrofheid op radiatoris.</i> F P J Botha en P H Faure	221
<i>The application of a reduced voltage, reduced frequency supply to brake an induction motor.</i> S M Schuck and M Hammerschlag	223
<i>Fasorvertoning.</i> F J C Louw en P J Labuschagne	225
<i>Telemetriese registrering van asemhaling.</i> J G Barnardo en J D Leonard	228

Research Paper No 2: Surge propagation and reflection on a 400kV transmission line. F G Heymann	194
<i>The control of maintenance in a large telecommunications transmission network.</i> S V W Clarke	242
<i>Gas insulated energy transmission systems.</i> (Bernard Price Memorial Lecture). D Kind	270
Discussion by W L Browne	12
O H Rubins	27
J Hely-Hutchinson	53
R R Slatem	71
A Stark	73
A J Eriksson	145
